MUST-HAVES FOR SETTING UP A DIY HOME FILM STUDIO.

(ON ANY BUDGET!)

Hi Friend!

So, you're looking to invest in DIY video equipment and start sharing your message with the world via the medium of video - massive congratulations!

In case we haven't met before, I'm Rebecca. I've been in the video industry for over 10 years and have worked with hundreds of business owners, large organisations, governments and not-for-profits to create impactful online video.

My mission is to put video production tools and training into the hands of every business who cannot outsource or is not ready to do so - hence the creation of this very snazzy + comprehensive guide to DIY equipment for all budgets!

If you need a help setting up your home studio, learning how to use your equipment or anything at all to do with video production + creation, be sure to check out my online masterclass - [The Video Academy](#).

The Video Academy has been designed to eliminate overwhelm, give you confidence on camera and equip you with the knowledge you need to start converting followers into customers with video. Register for The Video Academy today and take video content off your to-do list!

DO YOU WANT HELP MAKING YOUR VIDEOS?

Join Us!

THE VIDEO ACADEMY

If you aren't using video consistently or at all because you don't know what to say and you're scared of looking like an idiot on camera, it's ok. You're not alone and I've been there too!

I created [The Video Academy](#) to take the stress and fear out of creating video content. To empower Business Owners and Thought Leaders in front of the lens so that they could confidently convert followers into customers.

The Video Academy is a 6 week program where you'll overcome your camera fears and learn how to create engaging videos that will attract new customers and grow your business.

By the end of my 6 week program you'll feel more [confident on camera](#), have a solid [visibility plan](#) and be [nailing video creation](#).

Ready to start building trust and driving engagement to grow your business like never before with video? Be sure to register for the next intake of [The Video Academy](#).

I can't wait to work with you.

BONUS

Rebecca's Desk Setup

I designed this guide to help you setup your home DIY studio, but since launching it (and going LIVE a lot) heaps of people have been asking me what I use when I'm not filming with my crew.

So here it is... the behind-the-scenes filming setup from my desk in the office (which also packs nicely into my handbag for on the road video meetings + presentations!)

Hope it helps!

Rebecca x

WEBCAM.

Logitech BRIO 4k Ultra HD USB-C Webcam

Approx. \$299

I LOVE the filter on this camera
- it makes me look amazing!

LIGHTING.

SOKANI X21 Compact LED light

\$69

I put one of these on a little tripod when I'm
on the road and pop it behind the webcam.

MICROPHONE.

Apple AirPods

Approx. \$200

So versatile - I love how they go from
phone to laptop easily, and keep my audio
crisp for my audience.
